ANNUAL REPORT OF

GREAT LAKES UTILITIES

FOR THE YEAR ENDING DECEMBER 31, 2009

2009 ANNUAL REPORT

HISTORY AND MISSION OF GREAT LAKES UTILITIES

Great Lakes Utilities (GLU) is a municipal electric company formed under Section 66.0825, Wis. Stats. As such, it is a public body and a political subdivision of the State of Wisconsin, with separate legal status from that of its members. GLU was formed in 2000 in order to become a vehicle for obtaining low cost and reliable electric power for its members. In 2004, GLU entered into interim agreements to provide full requirements service to member communities Clintonville, Shawano, Wisconsin Rapids and Kiel, as well as partial requirements service to Manitowoc ("Power Supply Members"). In 2007, GLU executed long term (25-year) power supply contracts with the Power Supply Members.

SIGNIFICANT ACCOMPLISHMENTS- 2009

GLU added to its power supply portfolio by executing a purchase and sale agreement with WPPI Energy for 15 MW of contract capacity.

GLU successfully converted its wholesale power agreement with Alliant Energy from full requirements to partial requirements service in order to achieve reduced energy rates and capacity charges.

GLU assumed full operational responsibility for energy market activities with the Midwest Independent System Operator, Inc. ("MISO") on behalf of its full requirements power supply members and became a voting member in MISO as a member of the Municipals, Cooperatives and Transmission Dependent Utilities Sector.

GLU developed a renewable energy rate rider program and tariff allowing members to voluntarily purchase more of their energy requirements from renewable sources. GLU also assumed responsibility for handling renewable reporting requirements within the M-RETS system on behalf of its power supply members.

GLU issued a Request for Proposal (RFP) for a study of renewable energy resources alternatives and engaged Burns and McDonnell to perform the study. GLU actively pursued development of renewable resource project opportunities and successfully bid on a potential acquisition of hydroelectric facilities situated along the Wisconsin River and currently owned by affiliates of NewPage Corporation. At year end, GLU was in the process of negotiating the terms of the proposed asset purchase Agreement with NewPage.

GLU developed a market-based interruptible tariff for use by members with large industrial retail customers.

GLU engaged the services of R.W. Beck to provide a thorough review of its operational and management policies and procedures.

MEMBER COMMUNITIES

Clintonville, Kiel, Manitowoc, Marshfield, Medford, Rice Lake, Shawano and Wisconsin Rapids.

The combined 2009 load of the GLU members was approximately 364 MW and 1,800,000 MWHs. Load served by GLU for its Power Supply Members was approximately 130 MW and 787,000 MWHs.

2009 BOARD OF DIRECTORS

Mike McCord; Tom Geitner, Clintonville Dennis Dedering, Kiel (Secretary) Nilaksh Kothari, Manitowoc Joseph Pacovsky, Marshfield (Chair) Michael Frey, Medford (Vice Chair) Scott Reimer, City of Rice Lake (Treasurer) Okho Bohm Hagedorn, Shawano Jem Brown, Wisconsin Rapids

GREAT LAKES UTILITIES Notes to Financial Statements December 31, 2009

NOTE A - SUMMARY OF ACCOUNTING POLICIES

The accounting policies of Great Lakes Utilities (GLU) conform to accounting principles generally accepted in the United States of America for local governmental units. A summary of GLU's significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

1. Reporting Entity

Great Lakes Utilities is a municipal electric company formed under Wisconsin Statute 66.073. As such, it is a public body and a subdivision of the State of Wisconsin with a legal nature and authority separate from its municipal members. GLU was formed by several Wisconsin municipalities in 2000 as a power supply alternative for members in order to increase the members' ability to obtain firm electric power and energy at reasonable costs.

2. Basis of Accounting

The accrual basis of accounting is utilized by GLU. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Power supply billings are made in accordance with approved tariffs. The approved tariffs for 2008 called for true-up calculations after the first quarter of 2009. Those true-up calculations resulted in approximately \$607,000 in refunds back to members, which was included as part of operating income.

Member assessments are determined and billed annually to cover general and administrative budget items. Special assessments may be determined and billed for special projects. Special assessments of \$100,000 were billed in 2009 to cover the preliminary costs associated with the hydroelectric project feasibility study.

3. Enterprise Fund Accounting Principles

The Governmental Accounting Standards Board (GASB) issued Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting". This statement provides that proprietary funds may apply all GASB pronouncements, as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict or contradict GASB pronouncements: Statements and Interpretations of the Financial Accounting Standards Board (FASB), Accounting Principles Board (APB) opinions, and Accounting Research Bulletins (ARB) of the Committee on Accounting Procedure. GLU have elected to apply only FASB, APB, and ARB materials issued on or before November 30, 1989.

- 4. Assets, Liabilities and Net Assets
 - a. <u>Cash</u>

Cash deposits consist of time deposits with a financial institution and are carried at cost. For purposes of the statement of cash flows, all cash deposits with a maturity of three months or less are considered to be cash equivalents.

b. Accounts Receivable

Accounts receivable are recorded at gross amount with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that the amount of such allowance would not be material to the financial statements.

GREAT LAKES UTILITIES Notes to Financial Statements December 31, 2009

NOTE A - SUMMARY OF ACCOUNTING POLICIES (Continued)

c. Capital Assets

Capital assets, which include property, plant, equipment assets, are reported in the financial statements. Capital assets are defined by the District as assets with an initial, individual cost of \$5,000 or higher and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets of the Utility are depreciated using the straight-line method over the following estimated useful lives:

| | Years |
|---------------|-------|
| <u>Assets</u> | |
| Equipment | 6 |

d. Net Assets

Net assets are classified into the following three components:

- 1) Invested in capital assets, net of related debt This component of net assets consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of "invested in capital assets, net of related debt". Rather, that portion of the debt is included in the same net assets component as the unspent proceeds.
- 2) Restricted This component of net assets consists of constraints placed on net asset use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- 3) Unrestricted This component of net assets consists of net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

5. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

6. <u>Summarized Comparative Information</u>

The basic financial statements include certain prior-year summarized comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the government's financial statements for the year ended December 31, 2008, from which the summarized information was derived.

GREAT LAKES UTILITIES Notes to Financial Statements December 31, 2009

NOTE B - CASH AND INVESTMENTS

Deposits of GLU are subject to custodial credit risk. Presented below is a discussion of GLU's deposits and the related risk.

Deposits with financial institutions are insured by the Federal Deposit Insurance Corporation (FDIC) in the amount of \$250,000 per official custodian through December 31, 2013. In addition, the Utility's non-interest bearing transaction accounts are fully insured under the Temporary Liquidity Guarantee Program through June 30, 2010. On January 1, 2014, the coverage limit for all accounts will return to \$100,000 for interest bearing accounts and \$100,000 for non-interest bearing accounts. In addition, the State of Wisconsin has a State Guarantee Fund which provides a maximum of \$400,000 per public depository above the amount provided by an agency of the U.S. Government. However, due to the relatively small size of the State Guarantee Fund in relation to the Fund's total coverage, total recovery of insured losses may not be available.

On December 31, 2009, none of GLU's deposits with financial institutions were in excess of federal and state depository insurance limits and uncollateralized.

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. GLU does not have an additional custodial credit risk policy.

NOTE C - RESTRICTED ASSETS

Restricted assets on December 31, 2009 totaled \$737,163 and consisted of cash and investments held for rate stabilization deposits.

NOTE D - MISO COLLATERAL DEPOSIT

As of December 31, 2009 GLU delivered \$920,799 to the Midwest Independent Transmission System Operator, Inc. (MISO), under a cash collateral agreement. The deposit will be held under the name of MISO for the benefit of GLU. The deposit account shall be drawn upon in case of payment default by GLU. The deposit shall be interest bearing and interest payments will be made to GLU quarterly provided there are no instances of default.

NOTE E - CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2009 was as follows:

| | | B | eginning | | | | | | Ending |
|---------------|---|---------|-----------|-----------|----------|------------|---|-----|----------|
| | | Ŭ Ŭ | | Inorococc | | Destroates | | Ŭ Ŭ | |
| | | Balance | | Increases | | Decreases | | | Balance |
| Capital asset | s, being depreciated | | | | | | | | |
| Equipment | | \$ | 237,935 | \$ | - | \$ | - | \$ | 237,935 |
| Less accur | nulated depreciation | | 105,337 | | 33,990 | | - | | 139,327 |
| Total capita | al assets being depreciated, net | \$ | 132,598 | \$ | (33,990) | \$ | - | | 98,608 |
| | | | | | | | | | |
| Less relate | d long-term obligations | | | | | | | | 178,451 |
| | | | | | | | | | |
| Invested in | capital assets net of related long-term | n ob | ligations | | | | | \$ | (79,843) |

NOTE F - LINE OF CREDIT

GLU has established a line of credit with US Bank. As of December 31, 2009, GLU has drawn \$0 on this line of credit of \$1,000,000.

NOTE G - NOTES PAYABLE

In 2009, GLU issued notes payable to provide cash for operating activities. The notes are due on January 1, 2014 with quarterly interest payments. Interest is calculated quarterly based on the JP Morgan Capital daily fluctuating rate plus an adder equivalent to 75% of the cost of borrowing or obtaining a letter of credit for the principal amount (whichever is less) from a designated local private lender. The outstanding balance as of December 31, 2009 was \$900,000.

| Outstanding Notes Payable | |
|---|---------------|
| Manitowoc Public Utilities | \$ 250,000 |
| Badger Power Marketing Authority, Inc. | 250,000 |
| City of Kiel | 200,000 |
| Wisconsin Rapids Light and Water Commission | 200,000 |
| | \$ 900,000 |

NOTE H - RISK MANAGEMENT

GLU has purchased commercial insurance policies for various risks of loss related to torts; theft, damage or destruction of assets; errors or omissions; injuries to employees; or acts of God. Payment of premiums for these policies is recorded as expenses of GLU.

NOTE I - CONTINGENT LIABILITIES

From time to time the Utility is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecast with certainty, it is the opinion of management and the Utilities' Attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the Utilities financial position or results of operations.

NOTE J - RELATED PARTY TRANSACTIONS

At the present time GLU has no employees. Therefore in order to facilitate operations, GLU has contracted with one of its members, Manitowoc Public Utilities (MPU), to provide management, secretarial, accounting and technical support services. GLU is charged for these services based upon actual time spent by MPU personnel on GLU operations. GLU is then billed for these services based upon contracted hourly rates. As of December 31, 2009, GLU has recorded a noncurrent liability to MPU of \$178,451 for capital equipment utilized by GLU and GLU has recorded a current liability to MPU of \$28,385 for management services rendered.

NOTE K - INTENT TO PURCHASE HYROELECTRIC PROJECTS

Great Lakes Utilities (GLU) and consolidated Water Power Company (CWPCo), a subsidiary of NewPage Corporation, have signed a letter of intent for GLU to purchase five CWPCo hydroelectric projects located along the Wisconsin River in DuBay, Stevens Point, Whiting, Biron and Wisconsin Rapids, Wisconsin. The five hydroelectric projects have a combined installed capacity of 35.2 megawatts and the agreed upon price is approximately \$2,000 per kilowatt of installed capacity.
